Topics to be discussed are noted below. The complete agenda will be posted four days prior to the meeting at www.drecp.org/meetings/index.html.

- Discussion of the Integrated Energy Policy Report and its role in calculating the amount of renewable energy needed in the DRECP planning area to meet broad statewide policy goals
- DRECP Working Group Reports
- Discussion of a long-term monitoring project by BLM and DOE detailing survey protocols and methods for monitoring control and impact sites
- Summary Overview and Discussion—DRECP Framework Conservation Strategy
- Case studies of possible permitting scenarios with and without the DRECP NCCP/HCP
- Public Comment

Senate Bill X1-2 (Joe Simitian), signed into law by the Governor on April 12, 2011 (Pub. Resources Code, § 25740, as amended by Stats. 2011, 1st Ex. Sess., ch. 1X), increased California's renewable energy portfolio standard to 33 percent by 2020, and Executive Order S-14-08 mandated the development of the DRECP, a major component of California's renewable energy planning efforts. The DRECP, when completed, is expected

to further these objectives and accelerate the processing of renewable projects in the California Mojave and Colorado deserts.

The DRECP is a Natural Community Conservation Plan, which will help provide effective protection and conservation of desert ecosystems while allowing for the appropriate development of renewable energy projects. It will provide long-term endangered species permit assurances to renewable energy developers and a process for conservation funding to implement the DRECP. It will also serve as the basis for one or more Habitat Conservation Plans under the Federal Endangered Species Act.

The Stakeholder Committee was established to provide a forum for public participation and input into the DRECP. The list of Stakeholders is posted on the website and includes representatives of the counties in the desert region, renewable energy developers, environmental organizations, electric utilities, and state and federal agencies.

Written Comments

Members of the Stakeholder Committee or the public who wish to provide written comments on any of the meeting topics are asked to submit comments by May 27, 2011.
